

TEMPLE EDGE-LIT
Internally-Illuminated LED Signs

THE TALON

The TALON is Temple's latest Illuminated Street Name Sign (ISNS) product. Manufactured in Decatur, Alabama, the TALON is built for front-access serviceability. Transportation agencies and traffic departments continue to use LED signage to increase visibility of roadway messaging and wayfinding. MUTCD's guidelines state that signage should enhance the legibility and visibility of signs, especially at night or in low-light conditions. Enhance your streets with the TALON!
