

Steal a DEAL

Kyland's SICOM 3170 Traffic Ethernet Switch is the only hardened, rack-mount Traffic Ethernet Switch that operates on an ultra-green 7.2 Watts.

Simply plug the SICOM 3170 into a standard detector rack/input file to power (2) 1-Gigabit SFP uplink ports,* (1) RJ45 10/100/1000Mbps port, and (7) RJ45 10/100Mbps ports.

Treat yourself to our Steal-A-Deal offer with up to five (5) SICOM 3170's for an introductory price that's so good we can't even publish it.

For pricing, contact **Adrian Baker** at 800.633.3221 or via e-mail at adrian.baker@temple-inc.com
